

House of Wax

Little did Jordan Meadows realize, when Dad insisted she get a job, it would turn out to be such an amazing summer? Who would have guessed that all her eyebrow, bikini, and leg waxes at Tranquility Spa would pay off as job experience? Working behind the scenes on the set of House of Wax IX--Return of the Revengenerator, she becomes the go-to girl for paraffin wax. Then she meets Doug Charles, a band nerd from her high school. Between draping his freckled arms with wax and making sure he looks extra clotty, shes stunned to find herself falling in love with someone outside her own clique. As filming and the summer draw to a close, shes a changed girl, for sure. Shes made friends with people she never would have associated with at North High School, but what about her friends, the awesome foursome? Should she break up with Doug, since hes not a member of her exclusive, inner circle? Or is it time to branch out and make new friends?
