

## 1000 Gigs: A Life Well Lived

This is the statistical story of almost twenty years in the late twentieth century of solid gig-going; a life spent listening and interacting to live music, the story made human by anecdotes arising from the gigs. This epoch includes the most thrilling of musical times, the post-punk era of 1978 to mid 1980s - a period of energy, adventure, originality and innovation, coupled with a growing political/social awareness. The protagonist, however, did so much more besides during these near twenty years, and brief snippets of other events in his life are inserted accordingly. 2011 finds him still happily pursuing this path through life!
