

Tangram Fury Numbers Book: And so much more... (Tangram Fury Puzzle Book) (Volume 4)

Tangrams are ancient Chinese, ingenious puzzles. They are deceptively simple in design, yet can stump even the most seasoned of puzzlers. Then, the light clicks on and the answer suddenly seems so obvious. Its amazing that so many puzzles can be solved with the exact same 7 shapes. The Tangram Fury Numbers Book has a series of original puzzles representing fun images of numbers, but rather fittingly, the number tangrams make up only a small percentage of the tangrams in this book. This book goes beyond numbers to provide perhaps the most eclectic collection of tangrams in this book series. They range from a centaur to a painter to a dog in a hat to a table to very odd designs and, as the subtitle says, so much more. Following a brief introduction to tangrams, the main portion of the book provides challenging or whimsical puzzles to solve. The book is arranged to show a silhouetted puzzle, followed by its solution. This is followed by tidbits and trivia about tangrams and some famous people who have tinkered with tangrams over the years. (Can you solve the unsolvable Mad Hatter tangram created by Lewis Carroll?) It also provides some tips and suggestions for those with a competitive streak. The text sections of the books in this series are essentially the same, but the heart of the book - the part that includes the tangram puzzles - remains unique. Most of the puzzles have been designed by the author, Doug Nufer. This book series was featured on the NewsWatch TV program on Discovery Channel:
