

The Palpable Obscure

The Palpable Obscure is a collection of poems and prose poems that explore the ability of the literary mind to psychologically heal itself through the expression of the written word. Poetry becomes the vehicle of salvation from childhood trauma as the poet reveals the many layers of family drama that have encircled her as a child and continue to surround her into adulthood. The palpable obscure is a quote from Milton's Paradise Lost and refers to the enduring struggle between personal expression and the inability to translate that expression into clear and vivid experience. As the poet struggles through her own artistic challenges, she clarifies for herself and the reader that which until now has only been felt but not seen.
