

# The Givenchy Code: An Homage and A Parody

The murder of a prominent French personality in the fragrance industry jumpstarts this exhilarating code-cracking ride all over paris and deep into the heart of a religious conspiracy that centers around the real identity of a most revered religious icon. In a spine-tingling blend of electrifying adventure, scholarly intrigue and unforgettable, unpredictable moments, The Givenchy Code gleefully, perversely parodies scenes and pay homage to that brilliantly written other novel, while poking benign fun at the fragrance industry and ultimately conjecturing an out-of-the-world theory that the most venerated relic of them all was indeed not a cup but something far more shockingly extraordinary!
