

# How to Use the Internet: Seven Essential Internet Tools and Skills Anyone Can Learn to Use

Introduces a non-techie to the seven essential tools and skills they can easily learn. The book covers three tools and four skills. The three tools are: The Internet browser (the window to the Internet) Email (stay directly connected with others) Social networking (connect and reconnect with friends & relatives, and maybe even discover new ones) The four skills are: Texting (keeps you connected even when you have limited access) Internet research (learn anything from A to Z) Online shopping (find anything on the web) Online selling (offload your junk to those who need them). Anyone can learn these tools and skills; they just need to keep an open mind, and they will see.
