

Shades of Welcome

Looking back on a happy lifetime spent as a Catholic priest, Kenneth Payne presents an inspired biographical work that discusses a fundamentally important element of human life; namely hospitality and how it has been, and continues to be, a central component of his life, work and faith. This continues as a central theme in the presentation of his travelogue, which describes, not without humour, his work with many different groups of people. Especially moving are the descriptions of his work amongst the most poverty stricken people in Jamaica, and his visit to the deprived peoples in Brazil where the open door and welcoming arms are the agents through which Christ's teachings are practised in today's world. At a time when criticism is often levelled at the institutionalised churches, this book comes as a breath of fresh air and is of interest to many who may not share the author's faith.
