

Saint Bonaventure

The life of St. Bonaventure may, accordingly, be considered as the ideal to which the modern Franciscan tends: an ideal in which the simplicity of St. Francis is blended with a thorough grasp of the latest developments in scientific thought: in which personal holiness, because cognizant of self-weakness, is large-hearted and generous in its sympathy with others: in which the multitudinous details of active and administrative life are raised by a strong interior spirit from what might be a fertile source of distraction into a means of closer union with God.
