

SharePoint 2007 Tips, tricks and techniques

This book is a recipe book that gives you ready-to-use recipes to implement complex solutions in your organization. It contains full length articles as well as small tips that will come in handy at some point during your development cycle. SharePoint learning curve is steep; books like these enable you to learn SharePoint quickly. Book contains tons of information on InfoPath. Remember, using InfoPath with SharePoint gives you a powerful platform to create business applications. You can create electronic forms easily with InfoPath and publish them in SharePoint where users from across the organization can easily access them. Browser-enabled forms is another excellent feature that InfoPath 2007 provides. Not only InfoPath but SharePoint integrates well with the Office 2007 suite. The book shows you how you can use products like Groove and OneNote with SharePoint. It also gives you examples on how to use it with Access.
