

The House of Commons 1690-1715

This is the second of three volumes of Members biographical studies in the five-volume set, *The House of Commons 1690-1715*, in *The History of Parliament* series. The volumes provide essential information about the 1980 members of the house of Commons elected between 1690 and 1715. In addition to the political giants, much interest will be focused upon the less well-known Members, many of whose biographies have not previously appeared in print.
