

## Bloodlines: The Skylar Connors Chronicles (Book 1)

Skylar Connors is a retrieval specialist working out of Kingdom City. In the Kingdom, as its known to locals, fae, Otherkin, and witches all live alongside an oblivious human population. Connors himself is Otherkin, specifically the howling at the moon variety. Being a werewolf with supernatural friends definitely has its perks, along with some dark inclinations. There are some animal urges that cant be tamed even if you are living in the middle of a city. Life for the most part is comfortable for the only werewolf in Kingdom City if not entirely safe. That all changes when the citys otherworldly citizens start to turn up with the life literally sucked out of them. No one is the community understands the murders and no one wants to help stop it. Skylar, the one guy who would rather do anything else, is hired to track down the evil force that is becoming the bump in the night for all that bumps in the night. Soon his task becomes personal when one of his own is threatened with her life on the line, all the while he and his rag-tag group of friends face down some of the biggest names legend and fairytale has to offer.
